ABOUT ME

I am a dedicated and committed student with a growing passion for technology. I have recently completed my web development learning journey and am actively working on real-world projects. I enjoy building solutions that are creative, helpful, and engaging.

EDUCATION

Gokaraju Lailavathi Engineering College 2023 – 2027
Bachelor of Technology, Computer Science and Engineering
GPA: 8.5 / 10

SKILLS

Programming Languages	Java, C++, Python, JavaScript
Web Development	HTML, CSS, Node.js
Database	SQL, MongoDB
Tools/Platforms	Git, GitHub
Soft Skills	Communication, Teamwork, Problem Solving, Adaptability

PROJECTS

HealthBot - AI Chatbot for Healthcare Awareness [GitHub Link](#)
Created a conversational AI chatbot during a hackathon to assist users with basic health-related queries. Implemented with natural language processing capabilities and interactive UI.

MRI Scan Tumor Detection - Bits Hackathon [GitHub Link](#)
Collaborated in a team to build an MRI scan-based tumor detection system using deep learning. Designed the data pipeline and participated in model training and testing phases.

ACHIEVEMENTS

Top 50 finalist teams in BITS Hackathon 1st Place in SEEKH Event at college

CERTIFICATIONS

NPTEL Certification in "Joy of Computing using Python" with 77
